SUBJECT INDEX TO VOLUME 82

(ab) = abstract (E) = editorial

ABDOMEN, upper, transverse axial stratigraphy in study of (Anatomo-Radiologic Atlas) (ab), 1111

ABRODIL MYELOGRAPHY, thoracic, accidentally produced, observations in (ab), 569

ACCELERATOR, Stanford medical linear. II. Installation and physical measurements (ab), 1116

ACETATE-1-C^{14} into cholesterol by human intracranial tumors *in vitro*, incorporation of (ab), 180

ADENOCARCINOMA, combination of oxygen and optimum fractionation in radiation therapy of, 688

ADRENAL calcification, idiopathic, in infants and children, 510

cysts, calcified, 853

ADRENOCORTICOSTEROIDS, acute atrophy of thymus induced by: observed roentgenographically in living human infants; preliminary report, 530

AMEBIASIS of liver; diagnosis, prognosis, and treatment (ab), 963

AMERICAN BOARD OF RADIOLOGY, examinations, 728

examination in Nuclear Medicine, 563

AMERICAN RADIUM SOCIETY and radium therapy, early history of, Janeway Lecture, 1959, 574

AMERICAN ROENTGEN RAY SOCIETY elects new officers, 949

instruction courses of Sixtieth Annual Meeting of (E), 320

Planning the program; President's address, 755

Section on Instruction, 323

Sixtieth Annual Meeting of (E), 143, 928

Sixtieth Annual Meeting of—preliminary program, 150

The Commercial Exhibits, 943

The Scientific Exhibits, 934

Response and Recovery of Normal and Grafted Skin to Ionizing Radiation (Silver Medal), 934

The Sphincteric Function of the Uterine Isthmus (Bronze Medal), 934

Experimental Intraocular Venography (Bronze Medal), 935

Total Body Irradiation and Tissue Transplantation (Certificate of Merit), 935

Gas Tubes and Glass Plates (Certificate of Merit), 935

Tomography in the Diagnosis of Carcinoma of the Paranasal Sinuses (Certificate of Merit), 935

Vertebral Fractures with Demineralization; A Study of 105 Patients (Certificate of Merit), 936

Contributions of Plasma Constituents Produced Following Whole Body Irradiation on the Efficacy of Local Tumor Radiotherapy (Certificate of Merit), 936

Routine Air-Contrast Examination of the Duodenal Bulb (Certificate of Merit), 936

Subcutaneous Lymphangiography in the Human (Certificate of Merit), 936

Intracranial Sarcomas: Their Roentgenographic Manifestations, 936

Angiographic Demonstration of Extracranial Lesions Producing Cerebral Arterial Insufficiency, 937

Percutaneous Femoral Catheterization of the Left Ventricle for Contrast Cardiovascular Visualization, 937

Anomalies of Intestinal Rotation and Fixation: Embryology and Radiological Features, 937

Radiation Dose Reduction by Combined Copper and Aluminum Filters, 937

Idiopathic Periureteric Fibrosis, 937

Familial Recurring Polyserositis, 937

Fractures and Dislocations of the Cervical Spine; Mechanisms of Injury, 398

Experimental Induction of Calcium Deposition in Human Rachitic Cartilage, 938

Intravenous Cholangiography, 938

Intravenous Aortography, 938

Serial Femoral Arteriography in Occlusive Disease: Clinical-Roentgenologic Considerations, 939

Experience with Laminagraphy in a Small General Hospital—310 Patients, 939

The Sella Turcica, 939

A Teaching Exhibit on Congenital Heart Disease, 939

The "Normal" Lumbosacral Spine, 940

Subcutaneous Ossification of the Legs: Report on 60 Cases Associated with Chronic Venous Insufficiency, 940

Roentgen and Hematological Manifestations of the Congenital Hemolytic Anemias, 940

Case of the Day, 940

Myelofibrosis, 940

Respiratory Distress in the Newborn, 940

Intra-Aortic Nitrogen Mustard Used in Palliation of Advanced Pelvic Malignancy, 941

Postbulbar Duodenal Obstruction, 941

Iridium 192 in Cancer Therapy, 941

Roentgen Manifestations of Mesenteric Vascular Disease, 941

Roentgen Findings in Histoplasmin-Positive School Children, 942

Colonic Endometriosis, 942

The Esophagogastric Closing Mechanism (The Role of the Abdominal Portion of the Esophagus), 942

ANEMIA of tumor-bearing animals, studies on. I.

Subcutaneous Ossification of the Legs: Report on 60 Cases Associated with Chronic Venous Insufficiency, 940

Roentgen and Hematological Manifestations of the Congenital Hemolytic Anemias, 940

Case of the Day, 940

Myelofibrosis, 940

Respiratory Distress in the Newborn, 940

Intra-Aortic Nitrogen Mustard Used in Palliation of Advanced Pelvic Malignancy, 941

Postbulbar Duodenal Obstruction, 941

Iridium 192 in Cancer Therapy, 941

Roentgen Manifestations of Mesenteric Vascular Disease, 941

Roentgen Findings in Histoplasmin-Positive School Children, 942

Colonic Endometriosis, 942

The Esophagogastric Closing Mechanism (The Role of the Abdominal Portion of the Esophagus), 942

ANEMIA of tumor-bearing animals, studies on. I.

Distribution of radioiron following injection of labeled erythrocytes (ab), 366
sickle cell, roentgen changes in, 501
Anemias, hyperchromic, and radioactive vitamin B_{12}; study using Schilling's test (ab), 747
Aneurysm, bacterial (mycotic), of the radial and posterior tibial artery (ab), 962
of aorta, acute dissecting, retrograde aortography in (ab), 960
of renal artery; report of 5 cases (ab), 177
Angiocardiography, experience with two new media in; preliminary report, 779
Angiogram, carotid and vertebral, transient functional retardation of blood flow in (ab), 166
Angiography, carotid, in localization of supratentorial neoplasms and hamartomata (ab), 351
cerebral, abdominal aortography, and peripheral arteriography, safe and practical intravenous method for, 758
cerebral, errors and dangers of, and their prevention (ab), 165
cerebral, importance of accurate diagnosis by, in cases of "stroke" (ab), 955
cerebral, in children, roentgenologic aspects of, 371
cerebral, simultaneous biplane large-film serialography in, 773
pelvic, in diseases of prostatic gland, 784
selective; technique and applications in preoperative evaluation of patients with congenital and acquired heart disease (ab), 364
serial, long-segment, automatic: new unit (ab), 364
Aortic and mitral stenosis, combined, clinical and instrumental evaluation of (ab), 169
Aortography, abdominal, peripheral arteriography, and cerebral angiography, safe and practical intravenous method for, 758
and peripheral arteriography; analysis of results in University Medical Center (ab), 961
as diagnostic procedure in urology (ab), 961
retrograde, in acute dissecting aneurysm of aorta (ab), 960
thoracic, versus levoangiocardiography, 403
Armed Forces Institute of Pathology, new director at, 728
Arteria lusoria (ab), 1105
Arteries, coronary, abnormal congenital fistulous communications of, 392
Arteriography, cerebral, diagnostic value in cerebrovascular disease (ab), 166
coronary, in human, phasic dye injection control system for (ab), 960
femoral, skin necrosis complicating (ab), 961
peripheral, abdominal aortography, and cerebral angiography, safe and practical intravenous method for, 758
peripheral, and aortography; analysis of results in University Medical Center (ab), 961
Artery, renal, aneurysm of; report of 5 cases (ab), 177
renal, diseases of (ab), 177
Arthritis, rheumatoid, advanced, 2 unusual manifestations of (ab), 363
Asthma, and chronic hypertrophic emphysema, body section roentgenography in evaluation and differentiation of, 39
Atlas, pseudonotch of (ab), 955
Atrial puncture, left, new method of: transeptal left heart catheterization (ab), 353
septal defect, rheumatic heart disease associated with; clinical and pathologic study of 12 cases of Lutembacher's syndrome (ab), 958
Atrium, left, persistent left superior vena cava draining into, as isolated anomaly (ab), 959
Atrophy, acute, of thymus induced by adrenocorticosteroids: observed roentgenographically in living human infants; preliminary report, 530
Axis, congenital absence of odontoid process of; report of case (ab), 570
in children, pseudosubluxation of, 472
Axolotl, young, further investigation of effect of roentgen irradiation upon development of head of, 708

Back pain, low, and sciatica, discography in; analysis of 73 operated cases (ab), 569
Barium sulfate, effects of, on lungs; clinical and experimental study, 84
Basal ganglia of brain, calcification of, 806
Beta-ray sources, small, implanted under guidance of fluoroscopic image intensifiers, creation of deep cerebral lesions by (as used in treatment of Parkinson's disease), 613
Bezoar and its potential imitator, 1041
Bladder, ileal, postoperative investigation of (ab), 1114
Blood absorptive patterns of isotopically-labeled fat and fatty acid (ab), 745
cell count, red and white, and growth in rat, effect of roentgen-ray irradiation from modern dental x-ray unit on (ab), 369
Bone density, new development in equipment for roentgenographic measurement of, 303
involvement with disseminated histoplasmosis, 250
living, roentgenographic time lapse studies of; general considerations, 277
living, roentgenographic time lapse studies of; method of application to dog, 282
modeling, clinical concepts in, 217
radiation induced dysplasias of, 206
Book Reviews
Tumors of the Lungs and Mediastinum. By B. M. Fried, 159
Handbuch der Tuberkulose. Volume I: Allgemeine Grundlagen. Edited by J. Hein, H. Kleinschmidt, and E. Uehlinger, 159

Ergebnisse der Gesamten Tuberkulose- und Lungenforschung. Volume XIV. Edited by St. Engel, L. Heilmeyer, J. Hein, and E. Uehlinger, 160
Medizinische Röntgentechnik. II: Physikalisch-technischer Teil. Second edition. Edited by Herbert Schoen, 161
The Scandinavian Journal of Clinical & Laboratory Investigation. Volume 10—Supplementum 35. The Dye Injection Method for Circulatory Studies. A Critical Evaluation of the Technique, Apparatus and Results. By Walter Falholt, 161
Vascular Surgery. By Geza de Takats, 346
Gynecologic Radiography: Including Radiography of the Breast. By Jean Dalsace and J. Garcia-Caldéron, 346
The Chemical Prevention of Cardiac Necroses. By Hans Selye, 565
Aviation Medicine—Selected Reviews. Edited by Clayton S. White, W. Randolph Lovelace II, and Frederic G. Hirsch, 565
The Upper Atmosphere. By H. S. W. Massey and R. L. F. Boyd, 565
Lehrbuch der Strahlenheilkunde. Behandlung mit Röntgenstrahlen und radioaktiven Substanzen. By René du Mesnil de Rochemont, 730
Radioactive Isotopes in Clinical Practice. By Edith H. Quimby, Sergei Feitelberg, and Solomon Silver, 730
Atlas of Tumor Pathology. Section XII—Fascicle 40. Transplantable and Transmissible Tumors of Animals. By Harold L. Stewart, Katharine C. Snell, Lucia J. Dunham, and Samuel M. Schlyen, 731
Bronchography. By C. Dijkstra, 950
Manual of Chest Clinic Practice in Tropical and Sub-Tropical Countries. By A. J. Benatt, 950
Fracture Surgery: A Textbook of Common Fractures. By Henry Milch and Robert Austin Milch, with a chapter by Herbert D. Dubovsky, 950
BOWEL, small, malignant tumors of (ab), 1107
small, pattern associated with Zollinger-Ellison syndrome, observations on, 973
BRAIN, calcification of basal ganglia of, 806
BREAST, tumors of, analysis of technical possibilities of telecobalt therapy in (ab), 741
BRONCHIOLITIS, capillary, roentgenologic considerations of, 433
BRONCHOGENIC MEDIASTINAL CARCINOMA, 108
BRUCELLOSIS MYELOPATHY (ab), 569
BURN following accidental exposure to high energy radiation (ab), 1116
BUTLER, PATRICK F., obituary, 932
portrait, 932

CALCIFICATION, adrenal, idiopathic, in infants and children, 510
of basal ganglia of brain, 806
CALCIFIED ADRENAL CYSTS, 853
CALDWELL LECTURE, 1958. Functional roentgen diagnosis: anatomical image—physiological interpretation, 1
CANCER, gastric secretion, and of other things. Carman Lecture (ab), 1105
CARBON DIOXIDE INSUFFLATION, retroperitoneal, acute, experimental studies in (ab), 1114
CARCINOMA, gastric, ulcerating, meniscus sign in (ab), 1106
lesions of cardiac end of stomach simulating, 1048
mediastinal bronchogenic, 108
of cervix, postoperative irradiation of 86 cases of (ab), 737
of larynx; results obatained by surgery and external radiation in 93 cases (ab), 736
of thyroid in children after x-ray therapy in early childhood (ab), 368
of tonsillar area: factors influencing results of treatment, 626
CARDIAC OUTPUT with radioactive isotopes, critical evaluation of external body surface counting in determination of, 618
CARDIOPATHY, chronic, of Chagas' disease, radiologic aspects in (ab), 171
CARDIOPORTAL CIRCULATION TIME, determination of, by external scintillation counting (ab), 745
CARDIOVASCULAR ANOMALIES, complex, situs inversus totalis associated with (ab), 169
CAROTID AND VERTEBRAL ANGIOGRAM, transient functional retardation of blood flow in (ab), 166
CAVOGRAPHY in diagnosis and treatment of retroperitoneal metastases of testicular tumors, value of (ab), 738
CAVUM VELI INTERPOSITI and differentiation from cavum Vergae, 793
CENTRAL NERVOUS SYSTEM of adults, dermoid and epidermoid tumors in (ab), 568
CEREBRAL angiography, errors and dangers of, and their prevention (ab), 165
angiography in children, roentgenologic aspects of, 371
angiography, simultaneous biplane large-film serialography in, 773
arteriography—diagnostic value in cerebrovascular disease (ab), 166
lesions, deep, creation of, by small beta-ray sources implanted under guidance of fluoroscopic image intensifiers (as used in treatment of Parkinson's disease), 613
CEREBROVASCULAR DISEASE, diagnostic value of cerebral arteriography in (ab), 166
CERVICAL fracture dislocation in rheumatoid spondylitis; case study, 257
spine, dysphagia caused by hypertrophic changes in; report of 2 cases (ab), 959
CESIUM TELETHERAPY SOURCE, physical aspects of, 587

Chagas' disease, radiologic aspects in chronic cardiopathy of (ab), 171
Chemotherapy of choriocarcinoma and related trophoblastic tumors in women (ab), 181
Chest, axial transverse tomography of (ab), 355
Chicken bones in esophagus, some considerations concerning (ab), 959
Cholangiography, intravenous, during acute cholecystitis and acute pancreatitis, diagnostic value of (ab), 1109
operative, in diagnosis of prolonged jaundice in infancy (ab), 357
oral; method of visualizing "nonvisualized" gallbladder (ab), 357
Cholecystitis, acute, and acute pancreatitis, diagnostic value of intravenous cholangiography during (ab), 1109
Cholecystocholangiography, intravenous, diagnostic roentgenologic possibilities of (ab), 175
Cholecystographic visualization, opaque gallstones showing pliability during, 1024
Cholecystography in clinically suspected cases of infectious hepatitis with jaundice, value of, 1028
oral: review of techniques, 1003
Trendelenburg spot roentgenograms in, 1020
Cholesterol, incorporation of acetate-1-C^{14} into, by human intracranial tumors *in vitro* (ab), 180
Choriocarcinoma and related trophoblastic tumors in women, chemotherapy of (ab), 181
Chorionepithelioma, extragenital, in a male (ab), 740
subacute pulmonary hypertension due to (ab), 957
Cinefluorography, rotational, 120
second annual symposium on, at University of Rochester Medical Center, 563
Cisterna magna in encephalographic diagnosis, importance of air shadow of (ab), 167
Colitis, ulcerative, fulminating, plain film diagnosis of (ab), 175
fulminating ulcerative, "toxic" segmental dilatation of colon during course of: roentgen findings, 985
Collins, James Newton—in memoriam, 1895–1959, 557
Colon during course of fulminating ulcerative colitis, "toxic" segmental dilatation of: roentgen findings, 985
in systemic sclerosis (scleroderma), 1000
sigmoid, and rectum, endometriosis of; roentgenologic and pathologic study, 1070
transverse, volvulus of (ab), 1108
Colonic diverticulosis, incidence of, 996
Control system, phasic dye injection, for coronary arteriography in human (ab), 960
Coronary arteries, abnormal congenital fistulous communications of, 392
Corticosteroid therapy, peptic ulcers in rheumatoid patients receiving (ab), 181
Craniopharyngiomas, radiologic aspects of (ab), 350
Crohn's disease (ab), 1108
Cystourethrography, voiding, in diagnosis of congenital posterior urethral valves, 521
Cysts, adrenal, calcified, 853

Dermoid and epidermoid tumors in central nervous system of adults (ab), 568
Diabetes mellitus, roentgenographic findings in complications of, 887
Diagnostic procedures, studies on accuracy of, 25
Diaphragmatic changes incident to hepatic neoplasms, 114
hernia and left diaphragmatic eventration, differential diagnosis of (ab), 355
hernia in infancy, 437
Diastematomyelia (ab), 572
Diodrast, radioactive, and renal vein catheterization, determination of renal blood flow in man by means of (ab), 1114
Discography in low back pain and sciatica; analysis of 73 operated cases (ab), 569
Diverticulosis, colonic, incidence of, 996
Diverticulum, duodenal, intraluminal; report of case, 1036
Dosage calculations in telecobalt therapy, nomogram for, 706
Dose, absorbed, and linear energy transfer in radiation experiments (ab), 754
distribution about large circular and linear sources of gamma radiation (ab), 367
gonadal, in Canada arising from clinical use of unsealed radioactive isotopes (ab), 367
radiation, to lens in treatment of tumors of eye and adjacent structures; possibilities of cataract formation (ab), 368
Dosimeter, body-cavity (ab), 1115
Dosimetry, depth, for 250 kv. peak roentgen rays by means of gel-incorporated chemical system, 703
Duct, common, in nonvisualized gallbladder, significance of visualization of, 1016
Duodenal diverticulum, intraluminal; report of case, 1036
megabulbus and annular pancreas (ab), 1107
Duodenum, intramural hematoma of: case report, 1032
trauma to (ab), 1107
Dynapulse method of ultrashort (millisecond) timing and improved rapid impulse timing in medical roentgenography, 423
Dysphagia caused by hypertrophic changes in cervical spine; report of 2 cases (ab), 959
Dysphagia. Nisbet Symposium 1958. Part 2. Radiological investigation of dysphagia (ab), 354
Part 3. Radiological investigation of dysphagia from surgeon's viewpoint (ab), 355

Dysplasia epiphysalis multiplex (ab), 362
epiphysial, multiple (ab), 362
Dysplasias of bone, radiation induced, 206
spondylo-epiphyseal, pseudoachondroplastic forms of (ab), 572

Ebstein's malformation, clinical and physiologic studies in (ab), 957
Editorials
Sixtieth Annual Meeting of the American Roentgen Ray Society, 143
Merrill Clary Sosman, 1890–1959, 145
Gottwald Schwarz, 1880–1959, 148
Instruction Courses of the Sixtieth Annual Meeting of the American Roentgen Ray Society, 320
George Winslow Holmes, 1876–1959, 321
Changing Concepts of Malfunction of the Gastroesophageal Junction in Infants, 555
In Memoriam—James Newton Collins, 1895–1959, 557
Late Reactions following Supervoltage Radiation Therapy, 721
William Harvey Whitmore, 1892–1959, 726
Sixtieth Annual Meeting of the American Roentgen Ray Society, 928
Patrick F. Butler, 1877–1959, 932
Teleroentgen Diagnosis by Means of Video-Tape Recording, 1099
Elbow trauma, soft tissue alterations in, 867
Electronic flash, reproduction of roentgenograms by, 311
Emphysema, hypertrophic, chronic, and asthma, body section roentgenography in evaluation and differentiation of, 39
Endometriosis of sigmoid colon and rectum; roentgenologic and pathologic study, 1070
Enemas for roentgenographic preparation, water intoxication following, 1067
Encephalographic diagnosis, importance of air shadow of cisterna magna in (ab), 167
Epidermoid and dermoid tumors in central nervous system of adults (ab), 568
Epiphysial dysplasia, multiple (ab), 362
Erysipelas, swine, joint changes in (ab), 964
Esophageal moniliasis, 1063
stricture from accidental ingestion of Clinitest tablets (ab), 172
Esophagus, leiomyoma of, 1058
some considerations concerning chicken bones in (ab), 959
Excretory pyelography, clinical experiences in; comparative study of different contrast media (hypaque 50%, miokon 50% and urokon 50%) in 3,454 cases, 849
Exophthalmos, unilateral; roentgenographic aspects, 290
Eye and adjacent structures, radiation dose to lens in treatment of tumors of; possibilities of cataract formation (ab), 368
glasses for radiologist, 138

Face, human, further studies on growth of (ab), 954
Fahr's disease and its relationship to hypoparathyroidism; presentation of cases and discussion of clinical aspects (ab), 954
Fallot, acyanotic tetralogy of, 417
Fetal nervous system, developing, responses of, to roentgen irradiation (ab), 178
Fibrocystic disease of pancreas; roentgen manifestations (ab), 358
Fibroelastosis, endocardial, right-sided, tricuspid stenosis in association with right ventricular hypertrophy and coexistence of (ab), 353
Fibromyxosarcoma with cyst formation, effect of radiogold 198 in treatment of, 597
Fibrosis, periureteric; radiographic diagnosis (ab), 1113
Fistulas, pulmonary arteriovenous, unusual cases of, with note on thyroid carcinoma as cause (ab), 749
Flatfoot, congenital, due to talonavicular dislocation (vertical talus) (ab), 570
Fluoroelectrokymography, pulmonary (cinedensigraphy), observations on (ab), 957
Fluoroscopy in pediatric radiology and implications of image intensification (ab), 752
reduction of radiation to patient during; correlative study of image brightness with amount of radiation to patient in roentgens per minute at table top using Westinghouse image amplifier, 1076
Fossa, posterior, indications of neuroradiologic investigations in tumors of (ab), 1115
Fractionation, effect of: studies of time-dose relationships (ab), 366
Fracture syndrome, naviculo-capitate, 255

Gallbladder, double; report of 1 asymptomatic case demonstrated roentgenologically (ab), 1109
following single dose of telepaque, value of reexamination in patients with inadequate visualization of, 1011
"nonvisualized," method of visualizing; oral cholangiography (ab), 357
nonvisualized, significance of visualization of common duct in, 1016
wall, fixed defects in (ab), 356
Gallstones, opacifying (ab), 175
opaque, showing pliability during cholecystographic visualization, 1024
Gamma radiation, dose distribution about large circular and linear sources of (ab), 367
Gas-forming infections, unusual (ab), 963
Gas, small intestinal, in infants simulating obstruction, deficiency of, 450
Gastric ulcer, considerations of case of phytobezoar associated with (ab), 173
Gastritis, giant hypertrophic (tumor simulating) (ab), 172

Gastroesophageal junction in infants, changing concepts of malfunction of (E), 555
Gastrointestinal radiography, continuation course in, for radiologists, at University of Minnesota, 563
tract, relative biologic effect of ionizing radiations on (ab), 369
Glasses, eye, for radiologist, 138
Glioma of optic nerve and chiasm, roentgenologic manifestations of, 462
Gonadal radiation dose received by people of small American city due to diagnostic use of roentgen rays, 1081
Granuloma of stomach (ab), 1106
Growth of human face, further studies on (ab), 954

Hamartomata and supratentorial neoplasms, carotid angiography in localization of (ab), 351
Hand-Schüller-Christian disease, hormonal treatment of: report on case with disappearance of bone lesions (ab), 750
Hand skeleton, developing, sites of maturational strength and weakness in, 490
Heart deformities, congenital, postpericardiotomy syndrome in (ab), 958
disease, congenital and acquired, technique and applications in preoperative evaluation of patients with. Why selective angiography? (ab), 364
disease, congenital, isotope circulation studies in (ab), 746
left transeptal catheterization; new method of left atrial puncture (ab), 353
of fetal, newborn, and adult rabbits, distribution of radioactive sulfate in (ab), 746
Hemangiopericytoma: report of 4 cases with review of literature, 658
Hematoma in children, acute obstruction of small intestine secondary to (ab), 173
intramural, of duodenum: case report, 1032
Hemolytic disease of Minkowski-Chauffard type and congenital venous malformations (ab), 962
Hepatic neoplasms, diaphragmatic changes incident to, 114
Hepatitis, infectious, with jaundice, value of cholecystography in clinically suspected cases of, 1028
Hernia, diaphragmatic, and left diaphragmatic eventration, differential diagnosis of (ab), 355
diaphragmatic, in infancy, 437
paraduodenal; report of case with roentgen findings simulating small bowel tumor, 1038
Histoplasmosis, disseminated, bone involvement with, 250
Hodgkin's disease, combined radiation and nitrogen mustard therapy in, as compared with radiation therapy alone, 651
Holmes, George Winslow, obituary, 321
portrait, 321
Hormonal treatment of Hand-Schüller-Christian disease: report on case with disappearance of bone lesions (ab), 750
Hyperthyroidism, occurrence of thyroid nodules in children following therapy with radioiodine for (ab), 744
Hypertrophic changes in cervical spine, dysphagia caused by; report of 2 cases (ab), 959
Hypoparathyroidism, Fahr's disease and its relationship to; presentation of cases and discussion of clinical aspects (ab), 954
Hypophysis, transsphenoidal destruction of, with radioactive yttrium, 604

I^{131}-labeled rose bengal (radioactive) in study of human liver disease, use of: its correlation with liver function tests (ab), 744
-labeled thyroxine, intravenously infused, and red blood cell uptake of I^{131}-labeled *l*-triiodothyronine, turnover of: thyroid function in supraventricular tachycardias (ab), 747
treatment of thyrotoxicosis with; review of 500 cases (ab), 743
Ileocolic intussusception, roentgenologic aspects of hydrostatic reduction of, 455
Infections, gas-forming, unusual (ab), 963
Intensifying screens, duo- and tri-speed, placentography with, 897
Intestinal, small, gas in infants simulating obstruction, deficiency of, 450
small mesenteric, obstruction, roentgenologic evaluation of, 978
Intestine, small, acute obstruction of, secondary to hematoma in children (ab), 173
small, in newborn, radiologic study of atresia of (ab), 1107
small, in tropical idiopathic malabsorption, radiological investigation of (ab), 174
small, technical factors in roentgen examination of, 965
small, tumors of (ab), 174
x-irradiated, ultraviolet microscopy of (ab), 369
Intracardiac pressure measurements, retrograde levocardiography in connection with (ab), 171
Intracranial expansive lesions, our experiences with diagnostic exploitation of deep phlebogram in (ab), 165
tumors *in vitro*, human, incorporation of acetate-1-C^{14} into cholesterol by (ab), 180
Intravenous cholecystocholangiography, diagnostic roentgenologic possibilities of (ab), 175
pyelogram, five minute, as measure of renal function, 847
Intussusception, ileocolic, roentgenologic aspects of hydrostatic reduction of, 455

Iodinated dyes, attempted opacification of pancreas with use of (ab), 1111
Irradiated and normal $C_3H/HeCRGL^2$ mice, transplantable "mesenteric disease" (lymphopathia mesentericum) in, with special references to mammary tumors (ab), 369
animals, nature of effect of ACTH and cortisone on tumor growth in (ab), 754
Irradiation of thymic region, incidence of neoplasia after, 667
osteomyelitis of mandible following; experimental study (ab), 740
postoperative, of 86 cases of carcinoma of cervix (ab), 737
regulation of ovarian response to, by gonadotrophic antiserum (ab), 182
roentgen-ray, from modern dental x-ray unit on red and white blood cell count and on growth in rat, effect of (ab), 369
roentgen, responses of developing fetal nervous system to (ab), 178
supervoltage, total thoracic, followed by intravenous infusion of stored autogenous marrow (ab), 737
total-body, development of room specifically designed for (ab), 741
Iron (feosol) poisoning, fibrous stricture of stomach due to; report of case and brief review of literature (ab), 173
Isotope circulation studies in congenital heart disease (ab), 746
new, for interstitial implantation at operation; palladium 103 (ab), 180
Isotopes, radioactive, critical evaluation of external body surface counting in determination of cardiac output with, 618
radioactive, unsealed, gonadal dose in Canada arising from clinical use of (ab), 367
Isotopically-labeled fat and fatty acid, blood absorptive patterns of (ab), 745

James Picker Foundation adds new fellowship, 949
Janeway Lecture, 1959. Early history of radium therapy and American Radium Society, 574
Jaundice, prolonged, in infancy, operative cholangiography in diagnosis of (ab), 357
with infectious hepatitis, value of cholecystography in clinically suspected cases of, 1028
Joint changes in swine erysipelas (ab), 964
infections following steroid therapy: roentgen manifestations, 258
Juxtacortical osteosarcoma, early; (parosteal osteoma) (ab), 571

Kidney, right, raised position of (ab), 1112
Knock knee, physiologic, in childhood, radiologic study of (ab), 363

Larynx, carcinoma of; results obtained by surgery and external radiation in 93 cases (ab) 736
Leiomyoma of esophagus, 1058
Lesions, expansive, intracranial, our experiences with diagnostic exploitation of deep phlebogram in (ab), 165
Leukemia, acute, in childhood, roentgen therapy of certain complications of, 541
Leukemias and lymphomas, histopathologic effects of x-rays, radiophosphorus, nitrogen mustard, urethane, and steroids upon spleen in (ab), 182
chronic, radioactive phosphorus in treatment of: long-term results over period of 15 years (ab), 748
Levoangiocardiography, thoracic aortography versus, 403
Levocardiography, retrograde, in connection with intracardiac pressure measurements (ab), 171
Linear accelerator, Stanford medical. II. Installation and physical measurements (ab), 1116
Liver, amebiasis of; diagnosis, prognosis, and treatment (ab), 963
cyst, echinococcus, infected with *Salmonella Saint Paul*, first case report of (ab), 1100
disease, human, use of radioactive (I^{131}-labelled) rose bengal in study of: its correlation with liver function tests (ab), 744
Lumbosacral spine, "normal" (ab), 570
Lung biopsy, value of; disseminated indeterminate pulmonary disease (ab), 168
excavation of metastatic nodules in; roentgenographic considerations (ab), 353
idiopathic unilateral hyperlucent: roentgenologic syndrome, 63
trauma; influence of pre-existing pulmonary disease (ab), 352
Lungs, effects of barium sulfate on; clinical and experimental study, 84
investigation of effects of opaque media on, with comparison of barium sulfate, lipiodol and dionosil, 902
Lupus erythematosus, systemic, roentgenologic evaluation of, 95
Lymph nodes, contrast visualization of (ab), 365
Lymphadenography in clinical practice (ab), 364
Lymphoma, follicular, case of (ab), 739
Lymphomas and leukemias, histopathologic effects of x-rays, radiophosphorus, nitrogen mustard, urethane, and steroids upon spleen in (ab), 182
Lymphosarcoma of stomach; review and case reports, 634

Malignant tumors, significance of tumor bed reactions in radiation treatment of, 678
Mastocytosis (urticaria pigmentosa), roentgen manifestations of, 239
Maxilla, superior, in early infancy, syndrome of acute osteomyelitis of (ab), 350

Measurements of leakage from sealed radioactive preparations (ab), 1117
Meconium ileus (contribution to radiologic diagnosis) (ab), 1108
Media, newer opacification, evaluation of; diatrizoate and diprotrizoate (ab), 960
two new, in angiocardiography, experience with, 779
Mediastinal bronchogenic carcinoma, 108
Melioidosis (ab), 956
Meniscus sign in ulcerating gastric carcinoma (ab), 1106
Mesenteric disease (lymphopathia mesentericum), transplantable, in normal and irradiated $C_3H/HeCRGL^2$ mice with special references to mammary tumors (ab), 369
Microlithiasis, alveolar, pulmonary (ab), 352
familial pulmonary alveolar; 4 cases from Colombia, S. A. Is microlithiasis also environmental disease? (ab), 956
Mid-Eastern Conference of x-ray technicians, 729
Minkowski-Chauffard type hemolytic disease and congenital venous malformations (ab), 962
Miokon in intravenous urography, use of chlortrimeton with (ab), 1113
Mitral and aortic stenosis, combined, clinical and instrumental evaluation of (ab), 169
Moniliasis, esophageal, 1063
Multiple myeloma, review of 51 cases of (ab), 572
Myelofibrosis; general and radiologic findings in 25 proved cases, 183
Myelography in diagnosis of diseases of spinal canal: symposium. Part I. Clinical indications for myelographic examination in diseases of spinal cord and spinal canal (ab), 359
Part II. Diseases of spinal cord and its covering with special reference to application of myelography (ab), 360
Part III. Prolapse of intervertebral discs and vascular disease of spinal canal (ab), 360
Part IV. Discussion (ab), 361
Myeloma, multiple, review of 51 cases of (ab), 572
Myelopathy, brucellosis (ab), 569
Myocarditis, interstitial, primary, during outbreak in Haifa area, radiological observations on 33 cases of (ab), 170

National Bureau of Standards, new radium solution standards, 728
National Committee on Radiation Protection and Measurements (NCRP); summary of NBS Handbook 69, 342
Naviculo-capitate fracture syndrome, 255
Neoplasia after irradiation of thymic region, incidence of, 667
Neoplasms, hepatic, diaphragmatic changes incident to, 114
supratentorial, and hamartomata, carotid angiography in localization of (ab), 351
Nephrocalcinosis, contribution to (ab), 359
Neurologic syndrome with bizarre skeletal lesions: congenital insensitivity to pain (ab), 1115
Neuroradiologic investigation in tumors of posterior fossa, indications of (ab), 1115
Neutron activation analysis (ab), 742
Nisbet Symposium 1958. Dysphagia. Part 2. Radiological investigation of dysphagia (ab), 354
Part 3. Radiological investigation of dysphagia from surgeon's viewpoint (ab), 355
Nitrogen mustard therapy and radiation combined in Hodgkin's disease as compared with radiation therapy alone, 651

Obstruction, mesenteric small intestinal, roentgenologic evaluation of, 978
simulating, deficiency of small intestinal gas in infants, 450
Odontoid process of axis, congenital absence of; report of case (ab), 570
Opacification media, newer, evaluation of; diatrizoate and diprotrizoate (ab), 960
Opaque media, investigation of effects of, on lungs with comparison of barium sulfate, lipiodol and dionosil, 902
Optic nerve and chiasm, roentgenologic manifestations of glioma of, 462
Orthopedics, roentgen evaluation of soft tissues in, 271
Osteoarticular diseases, geriatric aspect of (ab), 363
lesions in smallpox (ab), 960
Osteoid osteoma; report on 80 cases, 194
fifteen year follow-up of untreated patient (ab), 571
Osteomalacia, unusual roentgen manifestations of, 875
Osteomas of skull (ab), 167
Osteomyelitis, acute, of superior maxilla in early infancy, syndrome of (ab), 350
of mandible following irradiation; experimental study (ab), 740
Osteopathia condensans disseminata (osteopoikilosis); study of family of 4 generations, 229
Osteoporosis, senile, experimental, 300
Osteosarcoma, early juxtacortical; (parosteal osteoma) (ab), 571
Ovarian response to irradiation, regulation of, by gonadotrophic antiserum (ab), 182

Pain, congenital insensitivity to: neurologic syndrome with bizarre skeletal lesions (ab), 1115
Palate, cleft, radiological appearances of soft palate with reference to treatment of (ab), 350
Palladium 103; new isotope for interstitial implantation at operation (ab), 180
Pancreas, annular, and duodenal megabulbus (ab), 1107

attempted opacification of, with use of iodinated dyes (ab), 1111
false cysts of; report of 5 cases (ab), 1110
fibrocystic disease of; roentgen manifestations (ab), 358
normal lateral pneumotomographic appearance of (ab), 1110
PANCREATITIS, acute, and acute cholecystitis, diagnostic value of intravenous cholangiography during (ab), 1109
relapsing, chronic, pancreatography in diagnosis of (ab), 357
PANCREATOGRAPHY in diagnosis of chronic relapsing pancreatitis (ab), 357
PARIETAL PERICARDIUM, congenital deficiencies in; review with 2 new cases including successful diagnosis by plain roentgenography, 125
PARKINSON'S DISEASE, creation of deep cerebral lesions by small beta-ray sources implanted under guidance of fluoroscopic image intensifiers as used in treatment of, 613
PELVIC ANGIOGRAPHY in diseases of prostatic gland, 784
PEPTIC ulcer following portacaval shunt (ab), 172
ulcers in rheumatoid patients receiving corticosteroid therapy (ab), 181
PERICARDIUM, parietal, congenital deficiencies in; review with 2 new cases including successful diagnosis by plain roentgenography, 125
PHLEBOGRAM, deep, in intracranial expansive lesions, our experiences with diagnostic exploitation of (ab), 165
PHLEBOGRAPHY, simplified, of inferior vena cava in urologic diagnosis (ab), 1114
PHOTOFLUOROGRAPHY, decreasing radiation in (ab), 370
PHOTOSCANNING after simple changes in present equipment (ab), 367
PHYTOBEZOAR associated with gastric ulcer, considerations of case of (ab), 173
PITUITARY ABLATION, needle implantation of yttrium seeds for; in cases of secondary carcinoma (ab), 748
PLACENTOGRAPHY with duo- and tri-speed intensifying screens, 897
PNEUMOCONIOSIS, coal miners' (ab), 167
PNEUMOPERITONEUM, artificial, diagnostic (ab), 1111
postoperative, infants and children, significance of (ab), 358
PNEUMOTOMOGRAPHIC, normal lateral, appearance of pancreas (ab), 1110
POLYCYTHEMIA VERA, pulmonary vascular changes in (ab), 352
PORTACAVAL SHUNT, peptic ulcer following (ab), 172
PORTOGRAPHY, percutaneous splenic, technique, hazards and usefulness of (ab), 962
POSTPERICARDIOTOMY syndrome in congenital heart deformities (ab), 958
PRESACRAL VERTEBRAE, twenty-five, and thirteen pairs of ribs, individual with (ab), 570
PROGRAM, planning the; President's address, 755
PROSTATIC GLAND, pelvic angiography in diseases of, 784
PROTEINOSIS, pulmonary alveolar; report of 2 cases, 76
PSEUDOACHONDROPLASTIC FORMS of spondylo-epiphyseal dysplasias (ab), 572
PSEUDONOTCH of atlas (ab), 955
PSEUDOPOLYPOSIS LYMPHATICA ILEI, reticulopathies and phenomenon of (ab), 356
PSEUDOSUBLUXATION of axis in children, 472
PULMONARY alveolar microlithiasis (ab), 352
alveolar microlithiasis, familial; 4 cases from Colombia, S. A. Is microlithiasis also environmental disease? (ab), 956
alveolar proteinosis; report of 2 cases, 76
arteriovenous fistulas, unusual cases of, with note on thyroid carcinoma as cause (ab), 749
atrophy, idiopathic; "vanishing lung" (ab), 955
disease, indeterminate, disseminated; value of lung biopsy (ab), 168
disease, pre-existing, influence of; lung trauma (ab), 352
fluoroelectrokymography (cinedensigraphy), observations on (ab), 957
hypertension, subacute, due to chorionepithelioma (ab), 957
tumors, carbon suspension of radioactive gold in animal experiments in treatment of (ab), 750
vascular changes in polycythemia vera (ab), 352
PYELOGRAM, five minute intravenous, as measure of renal function, 847
PYELOGRAPHY, excretory, clinical experiences in; comparative study of different contrast media (hypaque 50%, miokon 50% and urokon 50%) in 3,454 cases, 849

RADIATION and health officer (ab), 753
and nitrogen mustard therapy combined in Hodgkin's disease as compared with radiation therapy alone, 651
decreasing, in photofluorography (ab), 370
dose, gonadal, received by people of small American city due to diagnostic use of roentgen rays, 1081
dose to lens in treatment of tumors of eye and adjacent structures; possibilities of cataract formation (ab), 368
experiments, absorbed dose and linear energy transfer in (ab), 754
exposure from dental x-ray units, limited survey of (ab), 752
gamma, dose distribution about large circular and linear sources of (ab), 367
high energy, burn following accidental exposure to (ab), 1116
induced dysplasias of bone, 206
injury to sigmoid and rectum (ab), 356

sensitization response to ("SR"), in normal vaginal mucosa, clinical significance of (ab), 741
therapy for stoma ulcer occurring after subtotal gastrectomy (ab), 739
therapy of adenocarcinoma, combination of oxygen and optimum fractionation in, 688
therapy, supervoltage, late reactions following (E), 721
to patient during fluoroscopy, reduction of; correlative study of image brightness with amount of radiation to patient in roentgens per minute at table top using Westinghouse image amplifier, 1076
treatment of malignant tumors, significance of tumor bed reactions in, 678
Radiations, ionizing, on gastrointestinal tract, relative biologic effect of (ab), 369
Radioactive cobalt, radium, and x rays, immediate effects of irradiation of elastic tissues with (ab), 751
diodrast and renal vein catheterization, determination of renal blood flow in man by means of (ab), 1114
gold in animal experiments in treatment of pulmonary tumors, carbon suspension of (ab), 750
holmium (Ho^{166}) in white mice, distribution of (ab), 750
isotopes, critical evaluation of external body surface counting in determination of cardiac output with, 618
isotopes for technicians, course in, at Queens Hospital Center, 564
isotopes, unsealed, gonadal dose in Canada arising from clinical use of (ab), 367
phosphorus in treatment of chronic leukemias: long-term results over period of 15 years (ab), 748
preparations, sealed, measurements of leakage from (ab), 1117
sulfate in heart of fetal, newborn, and adult rabbits, distribution of (ab), 746
vitamin B_{12} and hyperchromic anemias; study using Schilling's test (ab), 747
yttrium, transsphenoidal destruction of hypophysis with, 604
Radiocardiography, inhalation (ab), 179
Radiocobalt solution, apparatus for introducing into urinary bladder (ab), 749
Radiogold 198 in treatment of fibromyxosarcoma with cyst formation, effect of, 597
Radiographic diagnosis of periureteric fibrosis (ab), 1113
examination of surgically removed specimens with radiologic-pathologic correlation (ab), 964
features of tracheopathia osteoplastica (ab), 352
Radiographic study, uterine isthmus and its sphincter mechanism. I. Uterine isthmus under normal conditions (ab), 176
II. Uterine isthmus under abnormal conditions (ab), 176
Radioiodine for hyperthyroidism, occurrence of thyroid nodules in children following therapy with (ab), 744
therapy of malignant struma, concerning problems of (ab), 747
transformation of low grade papillary carcinoma of thyroid to anaplastic carcinoma after treatment with (ab), 749
Radioiron following injection of labeled erythrocytes, distribution of. Studies on anemia of tumor-bearing animals (ab), 366
Radioisotope course in hematology, Medical Division of Oak Ridge Institute of Nuclear Studies, 729
renogram, further experiences with, 862
Radioisotopes, external technique using; new test for vesicoureteral reflux (ab), 177
in clinical study of renal function, use of (ab), 179
short-half-life, production and medical applications of (ab), 742
Radiologic and general findings in 25 proved cases; myelofibrosis, 183
aspects in chronic cardiopathy of Chagas' disease (ab), 171
aspects of craniopharyngiomas (ab), 350
diagnosis, contribution to; meconium ileus (ab), 1108
study of atresia of small intestine in newborn (ab), 1107
study of physiologic knock knee in childhood (ab), 363
Radiological appearances of soft palate with reference to treatment of cleft palate (ab), 350
investigation of small intestine in tropical idiopathic malabsorption (ab), 174
observations on 33 cases of primary interstitial myocarditis during outbreak in Haifa area (ab), 170
Radiologist, eye glasses for, 138
Radiology, pediatric, and implications of image intensification, fluoroscopy in (ab), 752
Radiostrontium and radioyttrium, results of treating hemangiomas and flame nevi with (ab), 748
Radiotherapy of mouth and neck, thrush complicating (ab), 740
Radioyttrium and radiostrontium, results of treating hemangiomas and flame nevi with (ab), 748
Radium therapy and American Radium Society, early history of, Janeway Lecture, 1959, 574
therapy course at Queens Hospital Center, 729
x rays, and radioactive cobalt, immediate effects

of irradiation of elastic tissues with (ab), 751
REACTOR, AGN-201-M, thermal column (ab), 743
medical, installed at National Naval Medical Center, symposium on (ab), 741
medical, low-power, physical factors of (ab), 742
RECTUM and sigmoid colon, endometriosis of; roentgenologic and pathologic study, 1070
and sigmoid, radiation injury to (ab), 356
RENAL artery, aneurysm of; report of 5 cases (ab), 177
artery, diseases of (ab), 177
blood flow in man, determination of, by means of radioactive diodrast and renal vein catheterization (ab), 1114
disease, surgically correctable, roentgen manifestations of (ab), 1112
function, five minute intravenous pyelogram as measure of, 847
function, use of radioisotopes in clinical study of (ab), 179
mass lesions (cysts and tumors), roentgenographic analysis of, 840
RENOGRAFIN 60%, intravenous urography with, report of more than 600 cases (ab), 568
urographic medium, experience with (ab), 568
RENOGRAM, radioisotope, further experiences with, 862
RETICULOPATHIES and phenomenon of pseudopolyposis lymphatica ilei (ab), 356
RHEUMATIC HEART DISEASE associated with atrial septal defect; clinical and pathologic study of 12 cases of Lutembacher's syndrome (ab), 958
RHEUMATOID arthritis, advanced, 2 unusual manifestations of (ab), 363
patients receiving corticosteroid therapy, peptic ulcers in (ab), 181
spondylitis, cervical fracture dislocation in; case study, 257
RIBS, thirteen pairs of, and twenty-five presacral vertebrae, individual with (ab), 570
ROBERT J. REEVES LECTURE, 949
ROCKY MOUNTAIN RADIOLOGICAL SOCIETY elects officers, 949
ROENTGEN changes in sickle cell anemia, 501
diagnosis, functional: anatomical image-physiological interpretation. Caldwell Lecture, 1958, 1
evaluation of soft tissues in orthopedics, 271
examination of small intestine, technical factors in, 965
findings in traumatic rupture of spleen in children, 505
findings simulating small bowel tumor, report of case with; paraduodenal hernia, 1038
findings: "toxic" segmental dilatation of colon during course of fulminating ulcerative colitis, 985
irradiation, further investigation of effect of, upon development of head of young axolotl, 708
irradiation, responses of developing fetal nervous system to (ab), 178
manifestations; fibrocystic disease of pancreas (ab), 358
manifestations of joint infections following steroid therapy, 258
manifestations of surgically correctable renal disease (ab), 1112
manifestations of urticaria pigmentosa (mastocytosis), 239
manifestations, unusual, of osteomalacia, 875
-ray irradiation from modern dental x-ray unit on red and white blood cell count and on growth in rat, effect of (ab), 369
rays, 250 kv. peak, depth dosimetry for, by means of gel-incorporated chemical system, 703
rays, gonadal radiation dose received by people of small American city due to diagnostic use of, 1081
therapy of certain complications of acute leukemia in childhood, 541
ROENTGENOGRAMS as transparencies for projection, camera utilizing Polaroid Land process for reproduction of (ab), 370
by electronic flash, reproduction of, 311
spot, Trendelenburg, in cholecystography, 1020
ROENTGENOGRAPHIC analysis of renal mass lesions (cysts and tumors), 840
aspects; unilateral exophthalmos, 290
considerations; excavation of metastatic nodules in lung (ab), 353
findings in complications of diabetes mellitus, 887
measurement of bone density, new development in equipment for, 303
preparation, water intoxication following enemas for, 1067
time lapse studies of living bone; general considerations, 277
time lapse studies of living bone; method of application to dog, 282
ROENTGENOGRAPHICALLY OBSERVED in living human infants; acute atrophy of thymus induced by adrenocorticosteroids; preliminary report, 530
ROENTGENOGRAPHY, body section, in evaluation and differentiation of chronic hypertrophic emphysema and asthma, 39
medical, Dynapulse method of ultrashort (millisecond) timing and improved rapid impulse timing in, 423
plain, review with 2 new cases including successful diagnosis by; congenital deficiencies in parietal pericardium, 125
supervoltage, external lead shutter system for (ab), 1116

Roentgenologic and pathologic study; endometriosis of sigmoid colon and rectum, 1070
aspects of cerebral angiography in children, 371
aspects of hydrostatic reduction of ileocolic intussusception, 455
considerations of capillary bronchiolitis, 433
diagnostic, possibilities of intravenous cholecystocholangiography (ab), 175
evaluation of mesenteric small intestinal obstruction; statistical analysis, 978
evaluation of systemic lupus erythematosus, 95
manifestations of glioma of optic nerve and chiasm, 462
study of vascular markings of skull, 823
syndrome: idiopathic unilateral hyperlucent lung, 63
Roentgenologically controlled placement of needle in trigeminal root for treatment of tic douloureux, 830
demonstrated, report of 1 asymptomatic case of double gallbladder (ab), 1109

Schwarz, Gottwald, obituary, 148
portrait, 148
Sciatica and low back pain, discography in; analysis of 73 operated cases (ab), 569
Scleroderma (systemic sclerosis), colon in, 1000
Scleroma of upper air-passages; clinico-radiological study of 84 cases (ab), 736
Sclerosis of spongiosa of bone, widespread, urticaria pigmentosa associated with (ab), 959
systemic (scleroderma), colon in, 1000
tuberous (ab), 351
Senile osteoporosis, experimental, 300
Serialography, simultaneous biplane large-film, in cerebral angiography, 773
Shunt, portacaval, peptic ulcer following (ab), 172
Sickle cell anemia, roentgen changes in, 501
Sigmoid and rectum, radiation injury to (ab), 356
Situs inversus totalis associated with complex cardiovascular anomalies (ab), 169
Skeletal lesions, bizarre, neurologic syndrome with: congenital insensitivity to pain (ab), 1115
Skeleton, hand, developing, sites of maturational strength and weakness in, 490
Skin, mammalian, x-irradiated while anoxic and at different temperatures, immediate post-exposure permeability changes and some later responses of, 693
necrosis complicating femoral arteriography (ab), 961
Skull, osteomas of (ab), 167
roentgenologic study of vascular markings of, 823
Smallpox, osteoarticular lesions in (ab), 960
Soft tissue alterations in elbow trauma, 867
Sosman, Merrill Clary, obituary, 145
portrait, 145
Specimens, surgically removed, radiographic examination of, with radiologic-pathologic correlation (ab), 964
Spinal canal, myelography in diagnosis of diseases of: symposium. Part I. Clinical indications for myelographic examination in diseases of spinal cord and spinal canal (ab), 359
Part II. Diseases of spinal cord and its covering with special reference to application of myelography (ab), 360
Part III. Prolapse of intervertebral discs and vascular disease of spinal canal (ab), 360
Part IV. Discussion (ab), 361
Spine, lumbosacral, "normal" (ab), 570
Spleen in children, roentgen findings in traumatic rupture of, 505
in leukemias and lymphomas, histopathologic effects of x-rays, radiophosphorus, nitrogen mustard, urethane, and steroids upon (ab), 182
Splenic portography, percutaneous, technique, hazards and usefulness of (ab), 962
Spondylitis, rheumatoid, cervical fracture dislocation in; case study, 257
Spondylo-epiphyseal dysplasias, pseudoachondroplastic forms of (ab), 572
Spongiosa of bone, urticaria pigmentosa associated with widespread sclerosis of (ab), 959
Steroid therapy, joint infections following: roentgen manifestations, 258
Stomach, fibrous stricture of, due to iron (feosol) poisoning; report of case and brief review of literature (ab), 173
granuloma of (ab), 1106
in newborn, spontaneous perforation of: analysis of 13 cases (ab), 1106
lesions of cardiac end of, simulating carcinoma, 1048
lymphosarcoma of; review and case reports, 634
value and technique of suction biopsy of (ab), 751
Stratigraphy, transverse axial, in study of upper abdomen (Anatomo-Radiologic Atlas) (ab), 1111
Stroke, importance of accurate diagnosis by cerebral angiography in cases of (ab), 955
Strontium-90, maximum permissible body burden of (ab), 752
Struma lymphomatosa (Hashimoto's thyroiditis) and related thyroidal disorders (ab), 751
maligna, treatment of (ab), 178, (ab), 179
malignant, concerning problems of radioiodine therapy of (ab), 747
Supervoltage roentgenography, external lead shutter system for (ab), 1116

Talonavicular dislocation (vertical talus), congenital flatfoot due to (ab), 570
Telecobalt therapy in tumors of breast, analysis of technical possibilities of (ab), 741

nomogram for dosage calculations in, 706
TELEPAQUE, value of re-examination in patients with inadequate visualization of gallbladder following single dose of, 1011
TELEROENTGEN diagnosis by means of viedo-tape recording (E), 1099
TELETHERAPY SOURCE, cesium, physical aspects of, 587
TESTICULAR TUMORS, value of cavography in diagnosis and treatment of retroperitoneal metastases of (ab), 738
TETRALOGY OF FALLOT, acyanotic, 417
THERAPY, roentgen, of certain complications of acute leukemia in childhood, 541
rotation, orthovoltage; six years experience in general hospital (ab), 366
steroid, joint infections following: roentgen manifestations, 258
x-ray in early childhood, carcinoma of thyroid in children after (ab), 368
THORACIC abrodil myelography, accidentally produced, observations in (ab), 569
aortography versus levoangiocardiography, 403
supervoltage irradiation, total, followed by intravenous infusion of stored autogenous marrow (ab), 737
THORACOPAGUS twins, prenatal diagnosis of (ab), 1111
THRUSH complicating radiotherapy of mouth and neck (ab), 740
THYMIC REGION, incidence of neoplasia after radiation of, 667
THYMUS, acute atrophy of, induced by adrenocorticosteroids: observed roentgenographically in living human infants; preliminary report, 530
THYROID function in supraventricular tachycardias: turnover of intravenously infused I^{131}-labeled thyroxine and red blood cell uptake of I^{131}-labeled *l*-triiodothyronine (ab), 747
in children after x-ray therapy in early childhood, carcinoma of (ab), 368
transformation of low grade papillary carcinoma of, to anaplastic carcinoma after treatment with radioiodine (ab), 749
THYROIDAL disorders, related, struma lymphomatosa (Hashimoto's thyroiditis) and (ab), 751
THYROTOXICOSIS, treatment of, with I^{131}; review of 500 cases (ab), 743
TIBIAL ARTERY, posterior, and radial, bacterial aneurysm (mycotic) of (ab), 962
TIC DOULOUREUX, roentgenologically controlled placement of needle in trigeminal root for treatment of, 830
TIME-DOSE RELATIONSHIPS, studies of: effect of fractionation (ab), 366
TIME LAPSE STUDIES, roentgenographic, of living bone; general considerations, 277
roentgenographic, of living bone; method of application to dog, 282
TOMOGRAPHY, transverse, axial, of chest (ab), 355
TONSILLAR area, carcinoma of: factors influencing results of treatment, 626
TORULOMA, bronchiectasizing; new clinical form of respiratory torulosis (ab), 351
TORULOSIS (ab), 963
respiratory, new clinical form of; bronchiectasizing toruloma (ab), 351
TRACHEOPATHIA OSTEOPLASTICA, radiographic features of (ab), 352
TRENDELENBURG spot roentgenograms in cholecystography, 1020
TRICUSPID STENOSIS in association with right ventricular hypertrophy and coexistence of right-sided endocardial fibroelastosis (ab), 353
TRIGEMINAL ROOT, roentgenologically controlled placement of needle in, for treatment of tic douloureux, 830
TUBEROUS SCLEROSIS (ab), 351
TUMOR growth in irradiated animals, nature of effect of ACTH and cortisone on (ab), 754
simulating, giant hypertrophic gastritis (ab), 172
TUMORS *in vitro*, intracranial, human, incorporation of acetate-1-C^{14} into cholesterol by (ab), 180
of small intestine (ab), 174
trophoblastic, related, and choriocarcinoma, in women, chemotherapy of (ab), 181
TWINS, thoracopagus, prenatal diagnosis of (ab), 1111

ULCER, gastric, considerations of case of phytobezoar associated with (ab), 173
peptic, following portacaval shunt (ab), 172
stoma, occurring after subtotal gastrectomy, radiation therapy for (ab), 739
ULCERATIVE COLITIS, fulminating, plain film diagnosis of (ab), 175
ULCERS, peptic, in rheumatoid patients receiving corticosteroid therapy (ab), 181
ULTRAVIOLET MICROSCOPY of x-irradiated intestine (ab), 369
URETHRAL VALVES, posterior, congenital, voiding cystourethrography in diagnosis of, 521
URINARY BLADDER, apparatus for introducing radiocobalt solution into (ab), 749
UROGRAPHIC contrast materials, present day, incidence of severe reactions from (ab), 1113
medium, renografin 60%, experience with (ab), 568
UROGRAPHY, intravenous, use of chlor-trimeton with miokon in (ab), 1113
intravenous, with renografin 60%, report of more than 600 cases (ab), 568
UROLOGIC diagnosis, simplified phlebography of inferior vena cava in (ab), 1114

Urology, aortography as diagnostic procedure in (ab), 961
Urticaria pigmentosa associated with widespread sclerosis of spongiosa of bone (ab), 959
(mastocytosis), roentgen manifestations, of, 239
Uterine isthmus and its sphincter mechanism, radiographic study. I. Uterine isthmus under normal conditions (ab), 176
II. Uterine isthmus under abnormal conditions (ab), 176

Valves, congenital posterior urethral, voiding cystourethrography in diagnosis of, 521
Vanishing lung; idiopathic pulmonary atrophy (ab), 955
Vascular changes, pulmonary, in polycythemia vera (ab), 352
markings of skull, roentgenologic study of, 823
Vena cava, left superior, persistent, draining into left atrium as isolated anomaly (ab), 959
Venography, improved method of (ab), 363
Venous malformations, congenital, hemolytic disease of Minkowski-Chauffard type (ab), 962
Ventricular hypertrophy, right, and coexistence of right-sided endocardial fibroelastosis, tricuspid stenosis in association with (ab), 353
Vertebra plana in children produced by xanthomatous disease, 482
Vertebral and carotid angiogram, transient functional retardation of blood flow in (ab), 166
Vesicoureteral reflux, new test for; external technique using radioisotopes (ab), 177
Video-tape recording, teleroentgen diagnosis by means of (E), 1099

Whitmore, William Harvey, obituary, 726
portrait, 726
Wilms' tumor; report of 71 cases (ab), 365
report of 45 cases and analysis of 1,351 cases reported in world literature from 1940 to 1958 (ab), 738

Xanthomatous disease, vertebra plana in children produced by, 482
Xeroroentgenography; evaluation of its use in diseases of bone and joints of extremities (ab), 963
X-irradiated intestine, ultraviolet microscopy of (ab), 369
skin, mammalian, while anoxic and at different temperatures, immediate post-exposure permeability changes and some later responses of, 693
X-radiation, diagnostic and therapeutic, in urban population (ab), 1117
X-ray therapy in early childhood, carcinoma of thyroid in children after (ab), 368
units, dental, limited survey of radiation exposure from (ab), 752
X-rays, 250-kvp., effects of concomitant superficial x-radiation upon lethal effectiveness of (ab), 753
300 kvp., broad beam attenuation in concrete for 50- to 300-kvp. x-rays and in lead for (ab), 751
radium, and radioactive cobalt, immediate effects of irradiation of elastic tissues with (ab), 751

Yttrium, radioactive, transsphenoidal destruction of hypophysis with, 604
seeds for pituitary ablation, needle implantation of; in cases of secondary carcinoma (ab), 748

Zollinger-Ellison syndrome, observations on small bowel pattern associated with, 973
